THE THIRD CHOICE AT A GLANCE

Vital Information Found In This Book

- There is an innovative and clear explanation of Islam from first principles, forming the first part of the book.
- The reader is provided with unique resources to evaluate conflicting claims about Islam and the history of Muslim-Christian relations. There are authoritative explanations of key subjects, including:
 - the role of women
 - female circumcision
 - punishment in Islamic law
 - 'lawful deception' (taqiyya)
 - the meaning of jihad and militancy
 - the teaching and moral example of Muhammad
 - the message of the Koran
 - immigration and the condition of Muslim minorities in Western nations
 - attitudes to Jews and Christians
- Although other authors have discussed these topics, The Third Choice explains them from first principles, and sets the information in the context of competing world views and global concerns. It is jam-packed with new information and illustrations which help the reader understand unfamiliar material.
- The Third Choice gives a completely fresh analysis of the conditions under which Christians and others must live after conquest by Islam. This is based on extensive primary research into Islamic theology, jurisprudence and history, and goes well beyond previous studies. At the heart of this analysis is the explanation of the classical system of taxation imposed by Islam on non-Muslims and its continuing theological, political and psychological implications.

The Third Choice at a Glance

Page 2

- This explanation forms the basis for an explanation of Islam's political and religious policy for non-Muslims, which is based on the principle that non-Muslims living under Islamic rule are obligated to display gratitude to Islam.

- The book debunks the myth that in the past Muslim societies were models of interfaith tolerance and harmony.
- The Third Choice explains how Islam's discriminatory treatment of non-Muslims exerts a hidden influence upon contemporary global politics, through world-wide Islamic revival, and why scholars and others can falsely deny the reality of this legacy and its continuing influence.
- The book explains how and why non-Muslim leaders can collaborate in complying with the supremacist demands of Sharia law, and why western societies seem to be capitulating to Islam's demands (the 'dhimmitude of the west').
- This book is unique in its integration of findings from religion, sociology, politics and human rights research. Without any concessions to political correctness, and yet displaying a profound compassion for Muslims and non-Muslims alike, it encompasses a vast sweep of history and contemporary developments, offering a comprehensive narrative of Islam's past influence, and current claims.
- The Third Choice uniquely equips readers to makes sense of global and local developments, and empowers them to respond positively to the challenge of Islam without fear, prejudice or hatred. It is intended to produce spiritual and moral resilience, strengthening and equipping readers to withstand Islam's claims on an informed basis.
